APL Reprocessing Projects

EFFECTIVE IMMEDIATELY

IlliniCare Health has completed the reprocessing of claims that denied for Non-Series Billable APL Codes (a2, a3 denial). Providers have received their reimbursement over the past few weeks. In addition, providers have received their Explanation of Payment (EOP) for claims that have denied for other reasons, like NCCI bundling edits.

IlliniCare Health will allow providers to send **corrected claims** from July 25, 2016 through September 30, 2016 without hitting a timely filing denial. Below are the guidelines for submitting corrected claims based on the APL Claims Reprocessing Projects:

- Claims must be submitted as a **corrected claim**.
- Corrected claims must be submitted within **90 days** from the date of disposition of the claim.
- Allowable timeframe for the timely filing edit lift is **July 25, 2016 through September 30, 2016 for the APL reprocessed claims only**.

If you have questions regarding this APL reprocess project, please contact your Provider Relations representative.
