Nursing Home Taxonomy Denial

IlliniCare Health has discovered a configuration issue in which Skilled Nursing claims were denied for missing taxonomy (EXBt: DENY: BILLING OR RENDERING PROVIDER TAXONOMY IS MISSING OR INVALID). The configuration team has corrected this problem so claims are no longer denying erroneously for taxonomy. This only impacted claims processed during the months of December 2016 through January 2017. We are currently submitting a full claims project on claims denied in error.

If you have any questions, please feel free to contact your Provider Relations representative.
